A modern interior space featuring a dark, textured stone wall. A minimalist table lamp with a black conical shade and a thin metal stand sits on a dark, rectangular table. The lamp is illuminated, casting a warm glow. To the left, a large window or glass door looks out onto a dark, leafy outdoor area. The floor is made of dark, rectangular tiles.

## ABOUT US

**We** at **LWS**, pride ourselves in bringing the best trends to light and to life by partnering with some of the world's most renowned brands in Lighting Systems. We offer all-inclusive and holistic project solutions including design and simulation support.

**LWS** provide customers with full-time support and assistance in every aspect of lighting they require to create the desired ambience and aesthetic appeal. Our list of expressive and exciting architectural, commercial and office lighting projects depict the talent in our team. With over 20 years' experience in the industry, we have a highly skilled team with in-depth knowledge who can guide and direct client requirements among large range of products to support your project and the team behind it. We are at our best when we become part of the light design process. Our deep product knowledge implies appropriate selection in lighting systems that could perfectly illuminate your spaces. We care about each customer at an individual level. Understanding the significance of the project and the end-design in mind, we are clear and focused to ensure the architectural and commercial lighting will be embellished. We can provide scrupulous guidelines and advice as we design your project. Then our accomplished team with their proficiency on site will carefully shape your requirement into the building. Considering each product range earnestly, we fetch for you the finest lighting technology available.

## Meet Our Founder And CEO

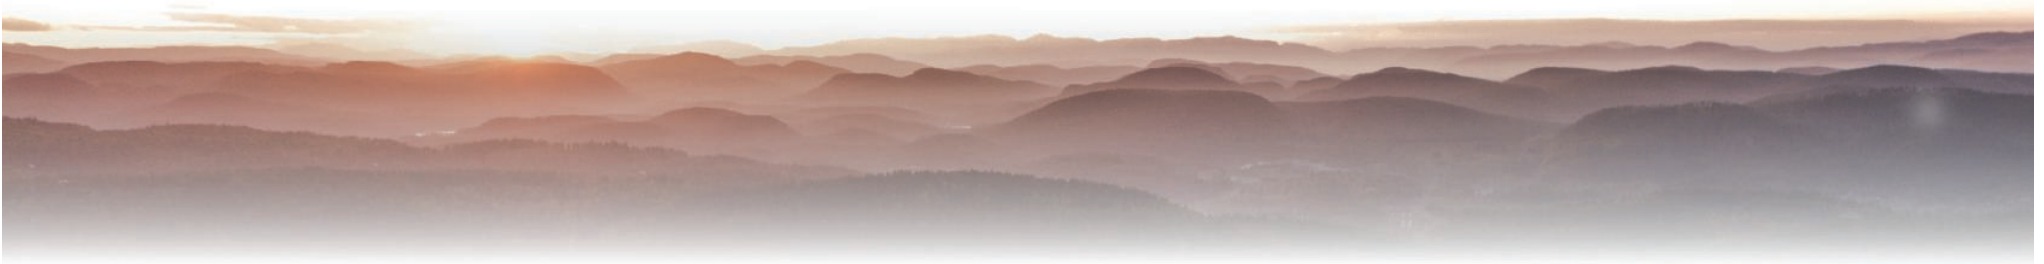

**ALTHAF ALI**  
CEO and CO Founder

Light is an essential part of our daily activities. Just like we need air, water and food to survive we need light in order to function efficiently. Gone are the days when people used to stop working after sunset. The invention of electricity with changes in illumination technology has made life easier, faster and has helped to improve efficiency. Proper lights create a powerful impact on highlighting spaces. As we know Light is Life, it can brighten up a space, add warmth, improve mood, atmosphere of a room, or even spectacularly feature certain areas. Light is essential to any interior space as it is the means by which we can see our surrounding environment. The feeling of a space can be completely transformed by altering the intensity, placement and color of light which makes it a very powerful tool. New technologies such as LEDs now allow lighting to be fully incorporated into any interior or architectural elements. LED lighting attributes to a calmer and comfortable atmosphere be it office or dwelling area. Light is an integral aspect of interior design, enhancing the mood and ambiance of a living space and adding aesthetic appeal to furniture, flooring, fittings to the finishes and textures. Proper illumination gives residential as well as commercial spaces a special look blending functionality and style to generate a visually dynamic space. Be it home, office, retail or mall, any space is incomplete without appropriate lighting.

# WHAT WE DO ?

## LIGHTING CONSULTANCY

We provide a wide range of consultancy services covering all aspects of lighting for the environment. Our services create a direct link between customer and manufacturer and the best performance is always guaranteed. We do specialized design, simulation and analysis of both daylight and artificial lighting within 3D computer models. We also provide a full range of architectural lighting design services - from initial concepts ideas to detailed design, wiring and control schematics, programming and commissioning.

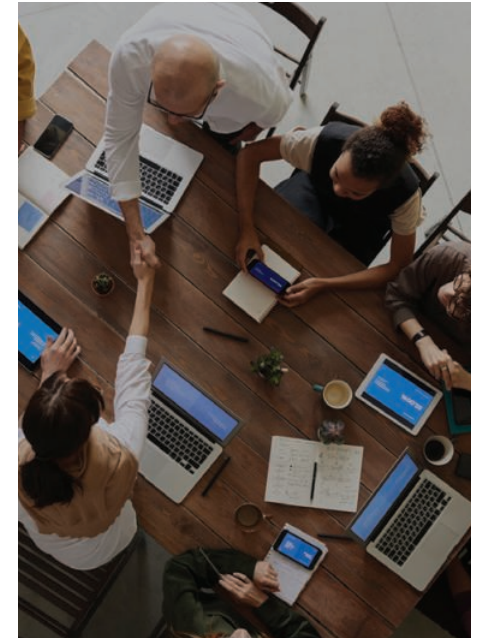

## ENERGY AUDIT

To reduce your operation expenses and increase your profit in these days of uncertainty, it is important to keep OPEX to minimum. In the past many companies have just considered utilities as "a cost of doing business". By running an inefficient building, you are overpaying your energy utility.

## SITE SURVEY

Our onsite surveys will record your existing lighting, operating hours and electricity costs leading to a detailed report which will tell you exactly how much the current lighting system costs on a monthly/annual basis. We will inform you when areas are over/under illuminated, thus identifying opportunities for daylight/presence control systems, establish the best energy saving lighting technology for your needs. We will identify any issues or specify equipment needed for the installation of new lighting.

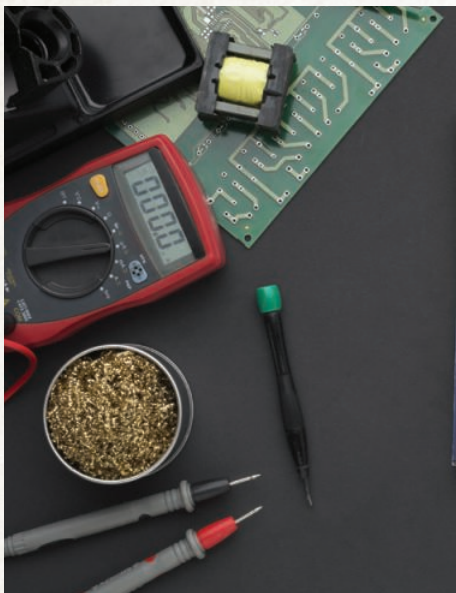

## PROJECT LIGHTING CONSULTANCY

When you choose our lighting solutions you are in safe hands of knowledgeable and caring lighting professionals.

Our team have fully qualified and highly trained Lighting experts who provide a design, specification and after-sales service. Our strive for technical perfection and innovative ideas are the strong points on which our customers can confidently rely on.

## ELECTRICAL SUPERVISION

Our Project support organization manages project orders from the start to closing, with single-point project responsibility. The Project Manager is the primary contact who will manage resources to fulfill project objectives and meet customer milestones.

## ON/OFF-SITE TECHNICAL SUPPORT

Our support team is staffed by fully qualified engineers who are able to offer customers advice and guidance on a wide variety of technical matters via telephone or e-mail. For any technical queries, a process of systematic questioning will enable us to diagnose the problem and advise you the appropriate solution.

## 3D/2D CONCEPTUAL DRAWINGS

We start with Conceptual design. At this stage the design can be discussed and used as a platform to launch the main lighting design. This would also include rough cost estimation to establish preliminary equipment budgets.

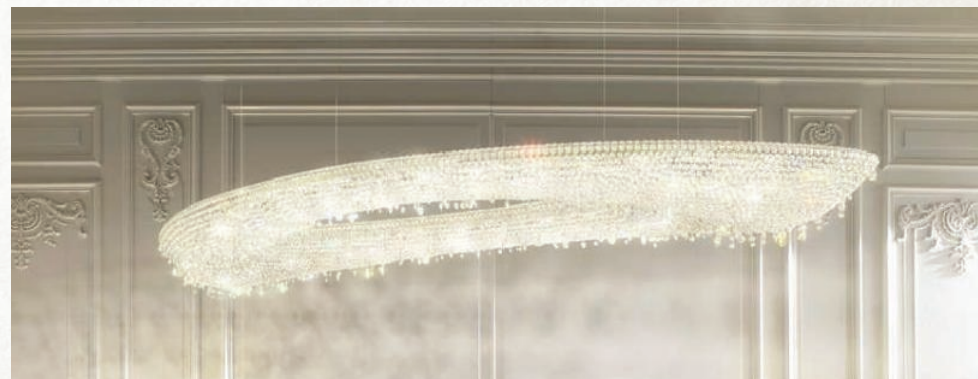

## COMPLETE AUTOMATION SOLUTION

We are specialized in lighting control and automation, supportive to projects from the design stage, all the way to installation and commissioning. Designs proposed are based on your requirements and the experience of your qualified engineers.

## DIGITAL SIGNAGES SOLUTIONS & LED SCREEN

Digital signages are screens where a variety of visual contents can be displayed in an interactive way. The Philips Digital Signage Solutions series gives four times the resolution of a conventional Full HD display. High pixels provide a life-like appearance like it's a window to a newer world.

## CUSTOMISED DESIGN

Our own designs and practically all of our lighting is based on your rough sketches and ideas converted into drawings (or we use your detailed drawings if you have them). We discuss any potential concerns and make adjustments if required, before production starts. We communicate these with you as well as updating you on progress throughout the making process.

# QUALITY CONTROL

# MISSION

Our mission is not just limited to identifying luminaires that meet your aesthetic and technical requirements but also going deeply into the technology involved to exquisitely integrate art and architecture in every aspects of lighting design.

## RETAIL

QUALITY LIGHTING CAN MAKE OR BREAK A SALE IN YOUR STORE - AND THIS ISN'T JUST ABOUT YOUR TYPICAL CEILING-LEVEL ILLUMINATION.

## OFFICE

LIGHTING HAS A SIGNIFICANT EFFECT ON THE HUMAN BODY AND HAS BEEN PROVEN TO ENHANCE PRODUCTIVITY IN THE WORKPLACE.

## MALLS

LIGHT PLAYS A VITAL ROLE IN THE CUSTOMER EXPERIENCE AT A SHOPPING MALL. LWS LIGHTING SYSTEMS CREATE THE DESIRED AMBIENCE TO GUIDE AND EASE MOVE...

## RESIDENTIAL

LIGHTING YOUR HOME CAN BE TRICKY AS DIFFERENT TASKS AND ACTIVITIES NEED TO BE CONSIDERED WHEN SELECTING LIGHTING, SUCH AS DINING...

# GROUP COMPANIES & SECTORS SERVE

### RESTAURANTS /CAFES

LIGHTING IS IMPORTANT WITHIN RESTAURANTS AND CAFES. FEATURE LIGHTING CREATES AMBIENCE AND MOOD, CRITICAL FOR ANY HOSPITALITY VENUE.

### STREET /GARDEN

WE DELIVER A VARIETY OF AESTHETICALLY PLEASING LIGHTING SOLUTIONS THAT ARE FUNCTIONAL, SUSTAINABLE AND IN HARMONY WITH THE ENVIRONMENT.

الموضوع: تأجيل للمشاركة في مشاريع إدارة الطرق (مورد فرعي)

تحية طيبة وبعد،

بالإشارة إلى طلبكم الموافقة على تأجيل شركتكم كمورد أعمدة الإنارة في مشاريع إدارة الطرق. نحيطكم علماً بأنه قد تم مراجعة المستندات المقدمة من طرفكم ولا مانع من الموافقة على تأجيلكم للعمل كمورد أعمدة الإنارة بمشاريع إدارة الطرق فئة (T) وبمبلغ (واحد مليون درهم) كحد أقصى للمشروع الواحد وذلك بشرط تحقيق كافة الاشتراطات الفنية والشروط التعاقدية لمشاريع الإدارة.

يرجى أخذ العلم بأنه سيتم تأجيل شركتكم لمدة عامين للنظر في مدى التزام المورد بتوقيت التوريد وجودة المنتج كما سيتم تقييم أداء شركتكم في كل مشروع تقومون بالمشاركة فيه وذلك لأغراض رفع/خفض/إلغاء الفئة التي تشاركون بها في المشاريع المستقبلية.

مرسل لعنايتكم لأخذ العلم والعمل بموجبه

وتفضلوا بقبول وافر التحية

WORK HEALTH AND SAFETY POLICY

Obligations

Management is firmly committed to a policy enabling all work activities to be carried out safely, and with all possible measures taken to remove or reduce risks to the health, safety and welfare of workers, contractors, authorised visitors, and anyone else who may be affected by our operations. We ensure all work activities are done safely.

Responsibilities

Management:

Will provide and maintain as far as possible:

- a safe working environment
- safe systems of work
- plant and substances in safe condition
- facilities for the welfare of workers
- information, instruction, training and supervision that is reasonably necessary to ensure that each worker is safe from injury and risks to health
- a commitment to consult and co-operate with workers in all matters relating to health and safety in the workplace
- a commitment to continually improve our performance through effective safety management.

Workers:

Each worker has an obligation to:

- comply with safe work practices, with the intent of avoiding injury to themselves and others and damage to plant and equipment
- take reasonable care of the health and safety of themselves and others
- wear personal protective equipment and clothing where necessary
- comply with any direction given by management for health and safety
- not misuse or interfere with anything provided for health and safety
- report all accidents and incidents on the job immediately, no matter how trivial
- report all known or observed hazards to their supervisor or manager.

Application of this policy

We seek the co-operation of all workers, customers and other persons. We encourage suggestions for realising our health and safety objectives to create a safe working environment with a zero accident rate.

This policy applies to all business operations and functions, including those situations where workers are required to work off-site.

Policy authorised by: Althaf Ali (CEO)

Date: 01.01.2018
